## Digital Upgrade! New CEREC Primescan

We started the year with a brand new CEREC Primescan! We've had the use of our previous CEREC Omnicam and been practicing digital dentistry for over seven years now. However, as you know with your mobile phones; technology progresses quickly and the world of dentistry is no exception. It was time for an upgrade and here we have the state-of-the-art technology for faster and more accurate digital impressions.

This CAD CAM technology is used to produce beautiful ceramic crowns and inlays all in a single

appointment. For you, the patient, this will mean there are fewer injections, less drilling, no messy impressions, no temporary crown and less time out of your hectic schedule.

As an alternative to taking impressions, our Primescan camera is used to take a digital image of your tooth. This whole scanning process only takes a few minutes. Your dentist will then create and design your crown using the CEREC software.

Within a few minutes, your dentist clicks a button, and your crown design data is sent to a separate milling machine on site. A ceramic block that matches your tooth shade is placed in the milling machine.

You can then help yourself to a hot drink from our coffee bar in the waiting room whilst you wait until your all-ceramic, tooth-coloured crown is finished and ready to be cemented into place.

Finally, your dentist tries the crown in your mouth to ensure it fits correctly. The crown is then polished and bonded to your tooth.

### PRACTICE HOURS

<i>Monday</i>	<b>9.00am</b>	<b>7.00pm</b>
<i>Tuesday</i>	<b>9.00am</b>	<b>5.00pm</b>
<i>Wednesday</i>	<b>9.00am</b>	<b>5.00pm</b>
<i>Thursday</i>	<b>9.00am</b>	<b>5.00pm</b>
<i>Friday</i>	<b>9.00am</b>	<b>3.20pm</b>
<i>Saturday</i>	<b>9.00am</b>	<b>1.00pm</b>
<i>Sunday</i>	<b>Closed</b>	

*Closed for Lunch Mon/Thurs - 1.30pm- 2.30pm  
Saturdays & Evenings by Appointment*

### EMERGENCY /OUT OF SURGERY HOURS

When the practice is closed please call the practice telephone number and a recorded message will give further information on how to access advice and treatment in the event of a dental emergency.

For a dental emergency outside of normal surgery hours, with the exception of Denplan members, a callout fee will be charged.

# STAFF NEWS

## MICRO-NEEDLING MAGIC FOR MORE RADIANT SKIN

We use an Automatic Micro-Needle Therapy System to deliver non-surgical and non-ablative treatment of various skin conditions such as ageing (wrinkles, stretching), scarring (acne, surgical) and hyperpigmentation.

Micro-Needling works by using a pen-like device containing microneedles to create a series of minor vertical, yet penetrating, stamps. Micro-Needling is safe and effective for all skin types and used all over the face to stimulate the natural production of new collagen and elastin. By simulating the body's own natural healing process, the skin rebuilds itself to a thicker, smoother, more even and tighter skin texture than previously.

With Micro-Needling Therapy we can treat

- **Acne Scars**
- **Wrinkles**
- **Skin Scars**
- **Skin Tone and Enlarged Pores**
- **Hyperpigmentation**
- **Collagen Deficiency**
- **Skin Rejuvenation**
- **Face Lifting**

We combine the Micro-Needling with Clinicare mesotherapy cocktails for an enhanced and more targeted treatment.

This innovative technology, has been clinically proven to dramatically minimize most skin imperfections and is specifically designed to provide a treatment that can revitalize dull, rough or blotchy complexions for a smoother, tighter, and more youthful appearance.

Initially after treatment there will be some redness and swelling, which should subside after 48 hours. The skin may start to flake after around three days, which should allow to fall off naturally and will leave you with new rejuvenated skin.

The procedure time is short and patients typically have 4 to 6 sessions initially for optimum results. We recommend having a single session every six months to a year after your initial treatment for maintenance and longer lasting results.

## An absolute pleasure to deal with

*Bradley C | 06 Feb 2024*

*I'd avoided the dentist for years, always had an irrational fear! However last year after a tooth broke I had to take the plunge and I'm so glad I chose Buckden Dental Clinic.*

*I have personally been seen to by Debbie Bell and she has been a delight, made me feel at ease from the off and has now done a few jobs including a filling today on a front tooth which was magnificent. Honestly it's a work of art, you'd never know to look at it.*

*I've found all the staff an absolute pleasure to deal with and now I don't go to the dentist with a sense of dread!*

*Can't recommend Buckden Dental clinic highly enough.*

*First of all, thank you for being a loyal and consistent patient over the years. Your satisfaction means a lot to us, and we hope we've been successful in providing you excellent dental care.*

*As of 1st January 2024 our routine examination appointments are £65.00 and hygienist appointments £105.00. Our new prices will allow us to continue to provide outstanding dental care.*

*If you have any further questions or concerns, please don't hesitate to contact us. Our reception team is more than happy to help in any way*
