## Overcome Dental Anxiety with IV Sedation

If you feel anxious about visiting the dentist, you're not alone. Dental anxiety or phobia is the top reason many adults delay essential dental care. Fortunately, IV sedation offers a solution, allowing you to receive the treatment you need in comfort.

IV sedation delivers an anti-anxiety sedative directly into your bloodstream, inducing deep relaxation while keeping you conscious. You'll be able to follow instructions, but you'll experience a strong sense of calm and may have little to no memory of the procedure afterward.

For those who fear injections, rest assured - your mouth is numbed only after the sedative takes effect.

IV sedation is ideal for nervous patients who would like minimal awareness during treatment. The sedation level can be tailored to your needs, offering a transformative, stress-free dental experience.

Speak to your dentist for more information about your treatment options.

You can call our reception on **01480 812898** or use the online booking link.

### PRACTICE HOURS

Monday	9.00am	7.00pm
Tuesday	9.00am	5.00pm
Wednesday	9.00am	5.00pm
Thursday	9.00am	5.00pm
Friday	9.00am	3.20pm
Saturday	9.00am	1.00pm

# Patient Testimonials

We're thrilled to share a recent patient success story that showcases the incredible results achievable with our comprehensive cosmetic dentistry services. This patient underwent a transformative journey that included clear aligners, teeth whitening, composite bonding, and a replacement crown all completed by Dr Aishah Nadim.

- 1) Over several months, clear aligners gently shifted the patient's teeth into their optimal positions, improving alignment and bite.
- 2) After alignment, we performed professional teeth whitening, brightening the smile several shades for a radiant appearance.
- 3) We then used composite bonding to fix minor chips and gaps, enhancing the overall symmetry and aesthetics of the smile.
- 4) Finally, we replaced an old crown with a new, natural-looking crown that blends seamlessly with the patient's newly aligned and whitened teeth.

The patient's smile transformation is stunning! They now enjoy straighter, whiter teeth, and their smile is not only beautiful but also healthier and more functional.

**WEAR PINK. RAISE MONEY. 18th October**

Please donate today

By Cash or Scan our QR Code for online donations

Join us on Friday 18th October 'Wear It Pink' day to raise funds for breast cancer research!

By wearing pink and donating, you'll help support life-saving research and treatments.

Every contribution makes a difference. The staff will be taking part along with the Shine Walk on Saturday 19th October to help raise funds for Cancer Research UK

## We value your feedback!

Please take a moment to scan the QR-code on the left and complete our quick satisfaction survey. Your input helps us improve our services and provide the best care possible. Thank you for being a valued patient!
